The Honourable Ralph Goodale, MP
Minister of Public Safety
House of Commons
Ottawa, Ontario
K1A 0A6

Dear Minister Goodale:

Re: Costs Associated with the Implementation of Cannabis Legalization in Ontario

The Regional Municipality of York Police Services Board (the "Board") passed a Resolution in 2017 calling upon the federal and provincial governments to provide sufficient funding on an ongoing basis to meet the increased demands on police resources for cannabis enforcement including reducing drug-impaired driving and calls for service related to the consumption of cannabis. The Board feels that it is critical for the Government to provide the appropriate funding to regulate and enforce the various aspects of this legislation without jeopardizing resources and public safety.

In the absence of sufficient funding from the federal and provincial governments, the citizens will be required to bear the brunt of policing cost increases either through an increase in their property taxes or a decrease in the level of service provided to them. The Board applauds the government for its announcement to provide some funding for the enforcement of the cannabis legislation; however, the costing model developed by York Regional Police shows an estimated cost of 2% of the operating budget or \$5.92 per capita. The estimates, provided by the Government, pay for \$1.49 of the almost \$6 per capita required by municipal police services to enforce this legislation. Clear discrepancies lie in the police costs associated with the legislation. The cost estimates by York Regional Police are such due to:

- training on new laws and training delivery including web-based and scenario-based training;
- equipment related to cannabis such as roadside oral fluid screening devices;
- public campaign focused on youth;
- increases to workload directly related to cannabis including drug-impaired driving, motor vehicle collisions and personal injury;
- a need to increase crime prevention initiatives.

To reiterate the costs which were conveyed to the Government in November, York Regional Police anticipates incremental costs of \$5.7M this year, \$6.4M in 2019 and \$8.6M in 2020 associated with the legalization of marijuana.

In addition, we have concerns over unknown aspects of the legislation including:

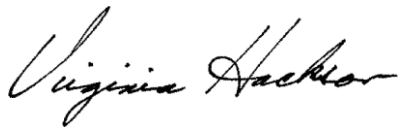

- return of property requiring the maintenance of cannabis plants;

- court administration for the new provincial offences act notices and the high dispute rate that may tie up police resources in the courts;
- overtime costs.

We urge the government to take steps to ensure that required funding be provided in recognition of these incremental costs and the real cost of enforcing the legislation.

Your consideration of this matter is very much appreciated.

Yours truly,

Volunteer of the Year Award

RECOMMENDATION

1. That the Board receive this report pursuant to Auxiliaries and Volunteers Board Policy No. 03/02 and present James “Rob” Johnson with the Volunteer of the Year Award.

SYNOPSIS

This report identifies the recipient of the 2018 Volunteer of the Year Award.

FINANCIAL IMPLICATIONS

There are no financial implications.

BACKGROUND

The week of April 16, 2018, has been declared National Volunteer Week by the Government of Canada. National Volunteer Week was first proclaimed in 1943. This is a special time set aside in April each year to honour and recognize Canadians who donate time and energy to their fellow citizens. National Volunteer Week also raises awareness of the vital contributions volunteers make to our communities and our country.

York Regional Police is fortunate to have a cadre of dedicated volunteers who donate their time to a variety of groups including the Auxiliary Unit, Pipes and Drums, Male Chorus, Venturer Scouts, Rover Scouts, Project Lifesaver, Special Events, Youth Band and most recently the 32 Military Police Cadets.

In 2017, the dedicated volunteers of these groups contributed nearly 35,000 hours of community service. York Regional Police recognizes the contributions of our volunteers with an annual appreciation celebration, as well as other informal means throughout the year. Volunteers have been recognized with event-specific thank you letters and are often featured in internal publications.

In recognition of the contribution that volunteers make to our service and our community, a Volunteer of the Year Award was introduced in 2005. This prestigious award is presented during the public session of the April Police Services Board meeting in or around National Volunteer Appreciation Week. Although York Regional Police recognizes the many people in our Region who donate their time and effort, one person in particular is honoured as Volunteer of the Year. This very special award is presented to a volunteer who has made a significant contribution to York Regional Police and the York Region Community. The 2018 recipient of the Volunteer of the Year Award is James "Rob" Johnson.

Originally from Toronto, Rob moved to York Region after purchasing a home in Aurora. With a long time appreciation and respect for Law Enforcement an initial connection was made with York Regional Police through the 2013 Ontario Special Olympics Summer Games. With the games approaching, Rob offered his photographic skills as a volunteer working alongside several members of York Regional Police. This experience led to a role as a volunteer member of the York Regional Police Special Events team participating in many events throughout the year. In addition, Rob has developed a strong bond with Ontario Special Olympics helping to raise funds, provide volunteer photography services and as an active member of the Law Enforcement Torch Run. Rob has also volunteered with 360 Kids, Victim Services of York Region, the York Regional Police Male Chorus and the United Way of Northumberland County providing photography and support for special events and other initiatives.

Looking for ways to further develop and grow within the community, Rob became a member of the York Regional Police Auxiliary Unit in December of 2016. With a range of duties and experiences, this opportunity has offered new and exciting challenges. Rob enjoys the camaraderie and teamwork with fellow Auxiliary members as well as sworn members while on the road in a general patrol role. Rob has long term goals to further expand his role within the Auxiliary Unit in the years to come. Rob is an active member of the York Regional Police Cycling Team participating in events to raise funds and awareness for initiatives such as The Canadian Peace Officers Memorial, Wounded Warriors Canada, The Ride for Karen, The Lake Ride for Southlake Regional Health Centre and The Ride 4 Styles.

To date Rob has volunteered over 1,000 hours as a photographer and 620 hours in two years as an Auxiliary.

The recipient of this year's award is someone who has lead by example and brings life to our motto "Deeds Speak". Congratulations to James "Rob" Johnson, Special Events Volunteer, Photographer and Auxiliary Police Constable.

THE REGIONAL MUNICIPALITY OF YORK
POLICE SERVICES BOARD

REPORT OF THE CHIEF OF POLICE

APRIL 25, 2018

York Region Centre for Community Safety Lease

RECOMMENDATIONS

1. That the Board extend the lease agreement between the Board and Newmarket Property Corporation for office space located at 16775 Yonge Street, Newmarket, Unit Number 200 consisting of 2,789 square feet for a period of one year at a cost of \$76,195 per year plus applicable taxes to commence on July 1, 2018; and
2. That the Chief of Police be authorized to execute a one-year renewal option for a second year of the agreement at the market rate that is mutually agreed to at the time of negotiations; and
3. That the Chief of Police be authorized to execute the lease agreement with Newmarket Property Corporation subject to the approval of the Region's Legal Services as to form and content; and
4. That pending approval of the above recommendations, the Board provides notice of the Agreement to the Region's Commissioner of Finance and Treasurer for reporting purposes under the Region's Capital Financing and Debt Policy.

SYNOPSIS

This report seeks the Board's approval to extend the existing three-year lease agreement for Unit 200 with an additional year with a further one-year option for renewal.

At its November 12, 2014 meeting, the Board authorized York Regional Police to enter into a lease between the Board and Newmarket Property Corporation for the lease of Units 200 and 211 comprising 6,923 square feet for a period of three years. The lease expires June 30, 2018. Of the 6,923 square feet of space leased, only 2,789 square feet, Unit 200 is still required.

FINANCIAL IMPLICATIONS

Funds in the amount of \$1,045,700 are included in the 2018 Operating Budget for rents, including \$418,900 for the leased Mulock location. The proposed agreement includes lease costs in year one at \$76,195, plus applicable taxes based on lease rates of \$15 per square foot; and \$12.32 per square foot for property taxes, maintenance, HVAC and insurance, subject to annual adjustments based on actual expenditures. In addition, the lessee is responsible for all other costs of occupancy including insurance on contents, maintenance, repair and replacement of the leased space.

The lease has an annual payment obligation of less than \$250,000 and, accordingly, is considered a non-material lease under the Region's Capital Financing and Debt Policy. Therefore, the Board does not require Regional Council's prior authority to extend the lease; however, the Board is required to give notice of it to the Region's Commissioner of Finance and Treasurer for reporting purposes under Section J.2(b) of the above-mentioned policy.

BACKGROUND

Established in 2012, the York Region Centre for Community Safety (YRCCS) has been a community collaborative approach to address gender based violence. The governance is co-lead by York Regional Police and Sandgate Women's Shelter and a steering committee comprised of approximately 12 like-minded service organization senior leaders.

Since May 2012, York Regional Police has offered space to YRCCS at the Yonge/Mulock Centre located at 16775 Yonge Street, Newmarket in order to partner with various agencies to provide the best care for victims of domestic violence.

YRCCS has a membership of 28 agencies who work collaboratively with and for victims of domestic violence. Of those 28 agencies, 12 agencies deliver direct service to clients out of the space located at the Yonge/Mulock Centre. YRCCS is centrally located within the Region along the Yonge Street corridor which allows for easy access to services for clients. Since 2013, 2,362 women and 1,594 children have been served by YRCCS with 1,222 cases currently open. Once clients are referred to YRCCS they receive ongoing case management support. This support is offered to clients who find themselves in an abusive relationship, whether they are still living with, considering fleeing, or successfully leaving an abusive partner. YRCCS offers clients seamless support when accessing all services in one location.

The York Regional Police Integrated Domestic Violence Unit (IDVU) falls under the umbrella of Major Crimes and is comprised of a Detective Sergeant, 24 specially trained investigators and two administrative support staff. Investigators respond to reports of domestic violence involving intimate partners, as well as review all domestic related occurrences whether or not charges have been laid. IDVU liaises with various community groups including those from diverse cultures, and develops training and educational materials in efforts to prevent the incidents of domestic violence from occurring or more importantly reoccurring. In 2017, members from

IDVU made over 90 referrals to YRCCS, but equally important, YRCCS has made approximately 31 referrals to the police. These incidents may have gone unreported had it not been for the efforts of YRCCS staff and the close partnership that has been developed between York Regional Police and YRCCS.

Domestic violence occurrences continue to be one of the highest calls for service York Regional Police receives. In 2017, there were 5,387 domestic violence occurrences; charges were laid in 27% of these reports. Through community outreach, education and victim support, the opportunity to see a further reduction in the number of occurrences is an expected outcome.

York Regional Police has established itself as a leader not only by establishing this partnership, but by being one of five police services in Ontario who have a specialized IDVU. The long term goal for YRCCS is to create a journey of one client, one file, one story. The years of experience have helped to promote knowledge transfer and deepening relationships between organizations. The on-site partners have joint activities, discussions and information sharing. The level of engagement and commitment of partners is influenced by their individual organization's mandate, funding expectations and capacity to provide resources.

Over the last 12 months there has been a change in leadership at YRCCS, on-site and external partners have changed and notice to relocate prompted a sense of urgency to complete their due diligence and review service delivery and data management, sustainable funding and a need for a permanent site. YRCCS next steps is to renew commitment from all partners, explore new partnerships, establish shared understanding and strategies to address the three core priorities and determine a comprehensive and multi sectoral response. The questions include: readiness of partners to engage, partners' level of commitment, specific site requirements, financial requirements and funding sources, performance indicators and measurements of success and how to create a woman centered response.

The Board's continued support in terms of providing a space to allow YRCCS to sustain service levels in current state without interruption and to allow YRCCS to explore future options for service delivery.

It is therefore recommended that the Board approve a one-year lease extension with Newmarket Property Corporation at 16775 Yonge Street, Newmarket, Unit Number 200 for a one-year period ending June 30, 2019, with a one-year option to renew at an annual cost of \$76,195 per year.

THE REGIONAL MUNICIPALITY OF YORK
POLICE SERVICES BOARD

REPORT OF THE CHIEF OF POLICE

APRIL 25, 2018

Software Maintenance Contract Renewals

RECOMMENDATIONS

1. That the Board authorize the renewal of software maintenance contracts with the contractors listed in Appendix 1, effective January 2018, for up to five additional terms of one year, provided that the contractor has performed satisfactorily and that sufficient funds have been provided in the annual budget; and
2. That the Chief of Police be authorized to execute the agreement on behalf of the Board.

SYNOPSIS

This report seeks the Board's authorization to renew existing software maintenance contracts annually, for a further term of up to five years. The Purchasing Bylaw 10-17 requires the Board's approval where the term of a contract, including any renewals, exceeds five years.

FINANCIAL IMPLICATIONS

Funding in the amount of \$3,311,400 is included in the 2018 Operating budget for software maintenance, inclusive of the requested contract renewals. The funding to renew outlook years is included in the 2019 Operating budget proposal and subject to the annual approval of the Board and Regional Council.

BACKGROUND

Software licenses and maintenance are required to support York Regional Police technology infrastructure. These products are used daily by York Regional Police members across the organization to perform their duties.

An inventory was undertaken of all software licenses and maintenance to ensure compliance with Purchasing Bylaw 10-17. Appendix 1 provides details on each item, including a general background and description, annual cost and estimated costs for an additional five years.

As the central manager for software maintenance, Information Technology staff have confirmed the software listed in Appendix 1 has been in use for several years and has satisfied our performance expectations.

It is therefore recommended that the Board approve the renewal of the software maintenance contracts listed in Appendix 1 annually, for an additional term of up to five years.

Thomas Carrique, M.O.M.
Acting Chief of Police

THE REGIONAL MUNICIPALITY OF YORK
POLICE SERVICES BOARD

REPORT OF THE CHIEF OF POLICE

APRIL 25, 2018

Cross-Municipal Working Group - Cannabis

RECOMMENDATION

1. That the Board receive this report for information.

SYNOPSIS

The intent of this report is to provide the Board with an overview of The Regional Municipality of York Cross Cross-Municipal Working Group that was formed in preparation for the pending legalization of cannabis via the *Cannabis Act* (Bill C-45).

The goal of the Cross-Municipal Working Group is to develop strategies that address the anticipated impacts of the *Cannabis Act* in York Region and to work collaboratively to establish a common approach to the legalization of cannabis across York Region.

FINANCIAL IMPLICATIONS

On November 15, 2017, the Board received an update on the anticipated financial implications of the *Cannabis Act* and Bill C-46 - Impaired Driving Amendments, totaling \$6.9 million per year or \$20.7 million over three years (2018-2020). At that time, the financial estimates were noted as preliminary based on what was known of the legislative amendments.

BACKGROUND

On May 24, 2017, the Board received a report from the Chief of Police and a presentation from Jason Fraser, General Counsel, regarding the anticipated operational impacts of Bill C-45 - the *Cannabis Act* and Bill C-46 - Impaired Driving Amendments.

On July 10, 2017, the Board passed a resolution “Effective Policing of the *Cannabis Act*” and forwarded the resolution to the Canadian Association of Police Governance, the Ontario Association of Police Services Boards, the Premier of Ontario, Ministry of Community Safety and Correctional Services, local members of Federal and Provincial Parliament and the Federation of Canadian Municipalities.

On November 15, 2017, the Board received a presentation from Jeff Channell, Manager of Financial Services, concerning the anticipated financial implications of the *Cannabis Act*. At that time, the Board passed a resolution calling upon the Federal and Provincial Governments to provide sufficient sustainable funding for cannabis-related law enforcement activities. This resolution was forwarded to Regional Council for its adoption and was sent to the Canadian Association of Police Governance, the Ontario Association of Police Services Boards, the Premier of Ontario, the Minister of Community Safety and Correctional Services, the Attorney General of Ontario, local members of Federal and Provincial Parliament, the Federal and Provincial Finance ministers, the Federal Public Safety Minister and the Federation of Canadian Municipalities. On November 16, 2017, this resolution was endorsed by Regional Council, along with its resolution regarding Bill 174 – *Cannabis, Smoke-Free Ontario and Road Safety Statute Law Amendment Act, 2017*.

On November 28, 2017, under the leadership of Chief Administrative Officer Bruce Macgregor and Chief of Police Eric Jolliffe, The Regional Municipality of York and York Regional Police led a symposium on Bill C-45 and Bill C-46 to educate the local municipalities and to commence collaborative planning in response to the proposed legislation.

On February 15, 2018, Regional Solicitor Joy Hulton, Dr. Karim Kurji, Medical Officer of Health, Community and Health Services, and Deputy Chief Thomas Carrique presented on Bill C-45 and Bill C-46 at a Regional Council Education Session. Following the Education Session, The Regional Municipality of York established the Cross-Municipal Working Group to collaboratively develop common strategies to address the anticipated impacts associated to the legalization of cannabis.

The mandate of the Cross-Municipal Working Group is to provide advice, information and communications to the Municipalities and Municipal Services to address the implementation of programs and services related to the legalization of cannabis.

The Working Group is comprised of members from across York Region and includes representation from: York Regional Police (YRP); Regional and Municipal Legal Services; Local Municipal Bylaw Enforcement; Local Municipal Building Standards; the Regional Fire Coordinator and a local Fire Service; Public Health; and, Provincial Offences Courts.

The objectives of the Cross-Municipal Working Group are to:

- Use its collective knowledge and expertise to provide strategic advice and feedback to their respective Municipalities and Municipal Services on the implementation and effectiveness of programs, services and policies related to the legalization of cannabis;

- Ensure policies and plans address and identify any issues and concerns that would also be in conflict with current municipal bylaws, policies, programs, practices, services and facilities operations;
- Establish a communication strategy that provides necessary resources and information with respect to policies and plans and other activities related to cannabis;
- Develop a common approach for responding to opportunities for comment on legislation and regulation governing cannabis;
- Ensure continual information sharing between the Cross-Municipal Working Group Members, Municipalities, Municipal Services and external associations if applicable.

The Cross-Municipal Working Group held its initial meeting in February 2018. Subsequent meetings and communication have focused on establishing the terms of reference, responding to proposed provincial regulatory framework, the sharing of relevant and emerging information, along with the knowledge and experience of the participants. York Regional Police has been an active member of the Cross-Municipal Working Group and will continue to support this important initiative.

Over and above the activities of the Cross-Municipal Working Group, since the initial announcement of the Federal Government's plans to legalize cannabis, York Regional Police has actively communicated with local Members of Parliament and Members of Provincial Parliament regarding policing concerns related to the pending legislation and the funds necessary to respond to the anticipated demands for service related to the pending *Cannabis Act* and Bill C-46.

In conclusion, this report provides the Board with an overview of the activities of the Cross-Municipal Working Group.

REPORT OF THE CHIEF OF POLICE

APRIL 25, 2018

2017 Annual Statistics

RECOMMENDATION

1. That the Board receive this report pursuant to Police Services Board Crime, Call and Public Disorder Analysis Policy No. 02/00-5.

SYNOPSIS

Pursuant to the long-standing practice of York Regional Police, crime statistics are presented to the Board twice a year, including a comprehensive report at year-end. A detailed statistical report, which overviews incidents reported between January 1 and December 31, 2017, has been compiled as attached.

York Regional Police publish crime statistics based on the number of reported violations using the Incident-based Uniform Crime Reporting methodology. Data is submitted to the Canadian Centre for Justice Statistics (CCJS) and is then used to compile national data, which is used for comparison purposes with other Police Services. This data is expected to be available in July and the national and provincial comparisons for 2017 will be included in a separate report following its release.

The reported overall Crime Rate (total number of Criminal & Federal Violations per 100,000 population) increased 3.9 percent in 2017 from 2016. Increases were seen in the rates of Crimes Against Persons, Crimes Against Property, Other *Criminal Code* violations, Weapons Violations and Public Morals Violations. Decreases were seen in Drug Violations and Other Federal Violations. The overall clearance rate had a slight decline of 0.7 percent.

Despite the increases in some categories of reported crime, York Region still remains one of the safest communities in Canada. In 2018 and beyond, we will continue to ensure our communities remain safe and secure through innovative and modern policing practices focused on the needs of the communities we serve.

FINANCIAL IMPLICATIONS

Not applicable.

INTRODUCTION

This report documents aggregate level crime statistics pertaining to the incidents reported to York Regional Police between January 01 and December 31, 2017. The report is structured into three sections: statistics for York Region, statistics for the Districts and statistics for the Municipalities. Results of the current reporting year (2017) are compared with the previous year (2016) for all the data tables prepared for the York Region, Districts and Municipalities. Trends in the last five years (2013-2017) are provided for key indicators of regional data. A glossary of terms, types of violations and changes in Uniform Crime Reporting (UCR) methodology are included in the appendices.

METHODOLOGY

The Canadian Centre for Justice Statistics (CCJS) of Statistics Canada, in conjunction with police jurisdictions across Canada, collects *Criminal Code* violations data through the incident based Uniform Crime Reporting (UCR2) survey methodology. York Regional Police implements UCR2 methodology and captures data in the process of receiving incident reports, providing investigative services and resolving the incidents, where possible.

UCR2 methodology classifies incidents according to the four most serious violations in the incident (generally the violations that carry the longest maximum sentences under the *Criminal Code*). Violent incidents are classified differently from other types of crime. For violent crime, a separate incident is recorded for each victim. In categorizing incidents, violent violations always take precedence over non-violent violations.

York Regional Police publishes crime statistics based on the number of reported violations using the UCR2 methodology. For the purposes of this report, all violations within an incident are included and robbery violations are counted per incident.

The Regional Municipality of York Long Range Planning Department has provided estimated 2017 population figures of York Region, Districts and Municipalities. The estimates are based on the Census 2011 counts² and Canada Mortgage and Housing Corporation (CMHC) housing completion data. Crime rates are calculated based on the year-end population estimates received from the Regional Municipality of York.

The report also includes statistics for the Alarm Program, Crime Stoppers, Legal Services, Victim Services of York Region and other services (police clearance letters, volunteer screening, MVC/Incident summary reports, warrants processed etc.) provided by the Information Management Bureau.

Crime rates incorporated in this report were estimated for all categories irrespective of the size of the denominator. Generally, rates and ratios are not reliable if it is based on a small number (less than 30). Readers are requested to consider the fact of 'small number' while using crime rate data presented in this report.

² The Regional Municipality of York adjusts population estimates when Statistics Canada releases census undercount. The Census 2016 undercount has not yet released by Statistics Canada.

For a reported incident, York Regional Police provides investigative resources towards resolving an incident. For some crime types, the process may take years and new investigative information is updated in the records management system. All data in this report is based on reported crime and represents a “snapshot” at the time of extraction from the records management system at year-end. Unless otherwise noted, any updates or revisions to data for the years prior to 2017 are not reflected in this report.

MAKING COMPARISONS

Unless otherwise noted, all crime statistics in this report are compiled using the “all violations” methodology. These statistics should not be compared with those provided by the *Canadian Centre for Justice Statistics* (CCJS), a division of *Statistics Canada*. The CCJS published data measures only for the most serious offence related to an incident. In addition, the CCJS includes the number of offences reported by the Toronto North Detachment of the Royal Canadian Mounted Police with York Regional Police’s crime statistics.

The CCJS data should be used for comparisons between policing jurisdictions as all data is compiled using the same reporting methodology.

APPENDIX A: GLOSSARY OF TERMS

Actual totals include only those incidents for which an occurrence report was made and have been substantiated through police investigation.

ATM Robberies include robberies at ATM machines within financial institutions or at stand-alone locations where the victim is approached and forced to withdraw money or is robbed as they are leaving the machine.

Calls to Communications Bureau include all telephone calls, 911 and non-emergency, made by members of the public.

Car Jacking includes robberies where the intent is to steal a motor vehicle with the use or threat of violence against the person(s) in care or control of that vehicle.

Citizen Generated Calls for Service occur when a citizen requests or requires a police response of any kind. Requests are received by, but not limited to, 911 telephone calls, non-emergency telephone calls, walk-in requests, online reports, or requests via other agencies.

Clearance Rates are calculated by the number of violations cleared by charge or otherwise (persons processed by other means) divided by the number of violations. These violations may not necessarily have occurred during the reporting period but sometime prior.

Crime Rates are expressed as a rate per 100,000 population using year-end population estimates supplied by the York Region Planning and Development Services Department and have been rounded to two decimal points. The rate for youth crime is based on 1,000 youth population.

Deposit Robberies include robberies where a business deposit is stolen from a person using force.

Dispatched Calls are those 911 emergency telephone calls and non-emergency telephone calls, which are received at the communications bureau, assessed and then dispatched to front-line officers to assist victim(s) or address concerns.

Fatal Motor Vehicle Collisions Contributing Factors are based on the Major Collision Investigation Unit's interpretation of each collision. Distracted driving is counted if there is some physical or witnessed evidence to suggest the collision was linked to distraction. Inattentive is based on witness or physical evidence that would cause belief that the responsible driver was inattentive and there is no other explanation for the collision. All other categories are self-explanatory.

Financial Robberies include robberies occurring at banks, credit unions, or involving armoured cars.

Hate Crime means a criminal offence committed against a person or property, which is motivated by the offender's bias, prejudice, or hate based on race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation, or any other similar factor.

APPENDIX A: GLOSSARY OF TERMS (CONT'D...)

Home Invasion is an intrusion into a residence with the intent of robbing the occupants therein.

Incident or criminal incident is the set of encountered events, which usually constitute an occurrence report and may contain one or more violations of the law. An incident report in RMS can accommodate up to four different violations.

Non-Criminal Deaths include natural deaths, suicidal deaths, non-traffic accidental deaths and undetermined deaths. The last three categories constitute non-natural deaths.

Offence is defined as a statistical fact for aggregate-based reporting. This terminology is not used in incident-based reporting.

Other Robberies include robberies that do not meet the criteria for any of the other categories. Examples include hotel robberies, robberies by uninvited guests at house parties, and break and enter occurrences that result in a robbery occurring.

Retail Robberies include robberies occurring at retail or commercial premises including convenience stores, restaurants/fast food establishments, massage parlours, gas stations, and donut/coffee shops.

Street Robberies include muggings, intimidation style robberies, and all other robberies by force or threat of force that occurs in a public place.

Violation refers to a contravention of the *Criminal Code*, *Federal*, or *Provincial Statutes*.

Victim is a person who is the target of a violent or aggressive action or threat.

Young Person or **Youth** refers to a person aged 12 - 17 years inclusive (*Youth Criminal Justice Act*).

Youth Crime Rate refers to the number of youths formally charged plus processed by other means for committing a criminal or federal offence per 1,000 youth population. Youth population (12-17 inclusive) estimates used are supplied by the York Region Planning and Development Services Department.

APPENDIX B: TYPE OF VIOLATIONS

Crimes Against Persons are crimes involving aggressive action (with the intent to do harm) or threat of such action by one person against another. These include violations causing death, attempt capital crime, sexual violations, assault, robbery and other violent violations, and violations/deprivation of freedom.

Violations Causing Death include murder 1st degree, murder 2nd degree, manslaughter, infanticide, criminal negligence cause death, and other related offences causing death.

Attempt Capital Crime violations include attempted murder and conspiracy to commit murder.

Sexual violations include aggravated sexual assault, sexual assault with a weapon or cause bodily harm, and level 1 sexual assault. This category also includes sexual violations that specifically apply to children such as invitation to sexual touching, sexual exploitation, incest, corrupting morals of a child, voyeurism and luring child via computer. Effective May 2015, this category also includes distribution of intimate images.

Assault violations include aggravated assault, assault with a weapon or cause bodily harm, assault, unlawfully cause bodily harm, discharge firearm with intent, assault peace/public officer, criminal negligence cause bodily harm, use firearm/imitation in commission of offence and point firearm.

Robbery and Other Violent violations include robbery, extortion, criminal harassment, uttering threats, explosives causing death/bodily harm, arson disregard for human life, intimidation of a justice system participant, intimidation of a non-justice system participant, and indecent/harassing communications.

Violations/Deprivation of Freedom include kidnapping, forcible confinement, hostage taking, trafficking in persons, and abduction.

Crimes Against Property involve unlawful acts with respect to property but do not involve the use or threat of violence against an individual. These include arson, break and enter, theft, possession/trafficking of stolen goods, fraud, and mischief.

Drug violations include violations under the *Controlled Drugs and Substances Act* and the *Food and Drug Act*. These violations are comprised of possession, trafficking, and importation/exportation or production of various illicit controlled drugs and substances.

Weapons violations include violations under the *Criminal Code*, which involve any thing used, designed to be used or intended for use in causing death or injury to any person or used for the purpose of threatening or intimidating any person. These include possession, use, trafficking, pointing, unauthorized import/export, firearms documentation and administration, and unsafe storage.

Public Morals violations include prostitution/public morals and gaming and betting. The definition of public morals violation was revised in 2016.

APPENDIX B: TYPE OF VIOLATIONS (CONT'D...)

Other Criminal Code violations include the remaining non-traffic *Criminal Code* violations that are classified as neither violent nor property violations. These violations are divided into two parts:

Part A: include bail violations, counterfeiting currency, disturb the peace, escape custody, luring a child via computer (effective April 1, 2008, this category is included in sexual violations), obstruct, unlawfully at large, trespass at night, fail to appear, breach of probation, and threatening/harassing telephone calls (effective April 1, 2008, this category is included in robbery and other violent violations).

Part B: include offences against public order, offences relating to terrorist activity, offences against administration of law and justice, invasion of privacy, offences against the person and reputation, offences against the rights or property, fraudulent transactions/contracts and trade, intimidation of justice system participant, wilful/forbidden acts/respect of certain property, offences related to currency, proceeds of crime, attempts/conspiracies/accessories, offences relating to criminal organization, and all other criminal code.

Federal Statutes violations include violations under all other federal statutes. They include the *Bankruptcy Act*, *Income Tax Act*, *Canada Shipping Act*, *Public Health Act*, *Customs Act*, *Competition Act*, *Excise Act*, *Immigration Act*, *Firearms Act*, *National Defence Act*, *Young Offenders Act*, *Youth Criminal Justice Act*, and *Other Federal Statutes*.

Traffic violations include all traffic violations under the *Criminal Code*. These include dangerous operation, evade police, impaired related violations (alcohol and drug), street racing, and other criminal traffic violations including fail to stop or remain and drive while prohibited.

Hate Crime means a criminal offence committed against a person or property, which is motivated by the offender's bias, prejudice, or hate based on race, national or ethnic origin, language, colour, religion, sex, age, mental or physical disability, sexual orientation, or any other similar factor.

Cybercrime is defined as a criminal offence involving computer or such device as the object of the crime or the tool used to commit a material component of the offence. Texting, messages on Facebook, Twitter and other such social media are considered as cyber-crime activity if a criminal offence is involved.

Commodification of Sexual Activity

In 2016, CCJS has introduced a new crime category 'commodification of sexual activity' while implementing the changes in Criminal Code introduced through Bill C-36 in December 2014. Maximum penalty of the then existing codes were increased for the new offence codes that constitutes the commodification of sexual activity. It is comprised of the seven offences associated with obtaining sexual services, material benefit from sexual services, procuring and advertising sexual services.

APPENDIX C: CHANGES IN REPORTING2 METHODOLOGY

In July 2013, Bill S-7 came into force amending the *Criminal Code* bringing changes in relation to harboring terrorists. For the purposes of this report, a new UCR violation code is included the Other Criminal Code (Part B) category.

In 2013, York Regional Police changed the methodology for calculating calls for service. Calls are now counted as total citizen generated calls for service. Due to the change in methodology, comparisons cannot be made with calls for service for years 2012 and 2013 with 2014 or subsequent years.

In 2013, York Regional Police changed the methodology for calculating response time. Due to the change in methodology, comparisons cannot be made for response times for years 2012 and 2013 with 2014 and subsequent years.

On February 17, 2014, the police district boundaries for 1 District and 5 District were realigned. Caution to be used in making comparisons with previous years' statistics.

In December 2014, Bill C-36 *the Protection of Communities and Exploited Persons Act* granted royal assent resulting changes to the violation codes related to prostitution. The changes were implemented in 2016.

In 2015, York Regional Police modified the default priorities for some call types. This change in methodology could affect call response time comparisons for 2015 compared to previous years.

In April 2015, Bill C-10 *Tackling Contraband Tobacco Act* created the offence of selling, etc. of tobacco products and raw leaf tobacco, previously an offence under the Excise Act. Incidents of this offence will now be included under the Other Criminal Code Part B category.

In March 2015, Bill C-13 *Protecting Canadians from Online Crime Act* created a *Criminal Code* offence for the non-consensual distribution of intimate images and a new UCR violence code was introduced. For the purposes of this report, this offence is included in the Sexual Violations category.

In June 2015, Bill C-51 *Anti-terrorism Act, 2015* was granted royal assent resulting in the addition of a new UCR Violation Code for advocating or promoting commission of terrorism offences. For the purposes of this report, this offence is included in Other Criminal Code Part B category.

In June 2015, Bill C-26 *Tougher Penalties for Child Predators Act (2015)* granted royal assent that came into force on July 2015. With this legislation enacted, the amendments resulted in an increase in maximum penalties for certain sexual offences against children, and violations of prohibition orders and probation orders. The changes were implemented during 2016.

APPENDIX C: CHANGES IN REPORTING METHODOLOGY (CONT'D...)

In 2016, changes were made to UCR methodology in relation to Bill C-36 *the Protection of Communities and Exploited Persons Act* which granted royal assent in December 2014. The legislation has resulted updates on a) sexual offences against children, b) commodification of sexual activity, c) Offences in relation to offering, providing or obtaining sexual services for consideration and d) disorderly houses, gaming and betting offences. The changes were implemented in the RMS in May 2016.

In May 2016, the Bill C-14 *Medical Assistance in Dying Act, 2016* was granted royal assent resulting in the addition of three new UCR Survey violations codes for failure to comply with safeguards/regulations and forging/destruction of documents. There were no violations associated with these codes in 2016. For reporting purpose, these offences are yet to be categorized by CCJS.

In May 2017, the Bill C-37 *An Act to amend the Controlled Drugs and Substances Act and to make related amendments to other Acts* was granted royal assent resulting in the increased penalty of six violations. CCJS has made adjustments to the UCR Survey.

In November 2017, the Canadian Centre for Justice Statistics (CCJS) has added four new violation codes specific to opioids (other than heroin) to the Uniform Crime Reporting (UCR) survey. The addition of these codes was in response to the need expressed by police services to capture the prevalence of opioids using violation codes specific to this type of drug. Previously, offences related to the possession, trafficking, importation and exportation and production of opioids (other than heroin) were included under 'other controlled drugs and substances'.

In December 2017, the Bill C-305 *An Act to amend the Criminal Code (mischief)* was granted royal assent resulting in the changes of the definition of violation code 2176 to 'Hate motivated mischief relating to property used by identifiable group' from 'Mischief to religious property motivated by hate'. The enactment amends Section 430(4.1) of the *Criminal Code*. CCJS has made changes to UCR Survey.

THE REGIONAL MUNICIPALITY OF YORK
POLICE SERVICES BOARD

REPORT OF THE CHIEF OF POLICE

APRIL 25, 2018

Use of Force Statistics

RECOMMENDATION

1. That the Board receive this report pursuant to Use of Force Board Policy No. 01/14.

SYNOPSIS

As per the Board's Use of Force Policy No. 01/14, a summary of the statistical information collected along with identified trends and issues related to Use of Force during 2017 are contained in this report.

FINANCIAL IMPLICATIONS

Not applicable.

BACKGROUND

Police officers are authorized to use a range of use of force options in response to an event or incident in order to protect life, preserve the peace, prevent crimes, maintain order and apprehend suspects.

When an incident occurs and an officer uses any of these force options, a Use of Force Report must be completed. Depending upon the number of officers involved, there may be several Use

of Force Reports submitted for each incident. The Use of Force Report provides a province-wide standardized method for the collection of local data by individual police services from use of force incidents that occur as a result of the day-to-day operations of a police service.

The authority and direction to collect use of force information are found in the Policing Standards Manual (AI-012), the *Police Services Act* (O. Reg. 926 s. 14.5) and York Regional Police Use of Force Procedure (AI-012/AI-014). In accordance with the Policing Standards Manual and the *Police Services Act*, York Regional Police Use of Force Procedure (AI-012/AI-014) states, in part, the following:

A member shall submit a Use of Force Report when:

- a) a member draws a handgun in the presence of a member of the public, excluding a member of the police force who is on duty, points a firearm at a person or discharges a firearm. A member of the public includes a suspect or arrested person;*
- b) a member uses a weapon other than a firearm on another person;*
- c) a Conductive Energy Weapon is unholstered and displayed in the demonstrated force presence mode; or*
- d) a member uses physical force on another person, not in relation to training conducted by the Training and Education Bureau, that results in an injury requiring medical attention.*

After a Use of Force Report is submitted by an officer, the member's immediate supervisor reviews it. The report is then forwarded to the Training and Education Bureau and then to the Use of Force Review Committee. The Use of Force Review Committee is comprised of the Officer-in-Charge of the Training and Education Bureau, a Staff Sergeant in the Training and Education Bureau, a Sergeant in the Practical Skills Unit, the Practical Skills Training Analyst, a Duty Inspector and a Patrol Sergeant.

York Regional Police Use of Force Procedure (AI-012/ AI-14) sets out the duties of the Use of Force Review Committee as follows:

The Use of Force Review Committee shall:

- a) meet quarterly and review a Use of Force summary;*
- b) evaluate procedures relating to:*
 - (i) drawing, exhibiting and discharging of a firearm; and*
 - (ii) use of force.*
- c) evaluate training methods;*
- d) annually produce a Use of Force Study that provides critical use of force data and trends which does not contain information that identifies reporting police officers;*
- e) direct the findings of the Use of Force Study to:*
 - (i) the Chief of Police;*
 - (ii) the Deputy Chief of Operations; and*
 - (iii) the Deputy Chief of Administration.*

The Training and Education Bureau compiles the data collected from the Use of Force Reports and this information is used to establish trends and identify problems that may be corrected through training or other administrative procedures.

Summary of the 2017 Use of Force Study:

- In 2017, York Regional Police members had 372,892 interactions with members of the public. These included traffic stops, citizen generated calls for service and officer initiated contacts. Of these interactions, 224 resulted in the submission of Use of Force Reports. Consequently, only 0.06 percent of police interactions with the public resulted in a Use of Force Report being submitted. In comparison, 234 incidents were submitted in 2016. There was a 4.27 percent decrease of the number of incidents requiring Use of Force Reports from 2016 to 2017.
- The following is a five year comparison of the total number incidents where Use of Force Reports were submitted:
 - 2013 – 161
 - 2014 – 165
 - 2015 – 293
 - 2016 – 234
 - 2017 – 224
- A total of 224 use of force incidents, recorded on 333 Use of Force Reports were filed in 2017, involving a total of 1,036 officers. In 2016, there were 234 use of force incidents, recorded on 337 Use of Force Reports submitted, involving a total of 733 officers. This change reflects a 4.27 percent decrease of the number of incidents requiring Use of Force Reports from 2016 to 2017 and a 41.2 percent increase in the number of officers involved in incidents that required Use of Force Reports (Chart 1). The factors contributing to the increase are described in more detail within the Trending Section of this Report.
- The humane dispatching of injured animals decreased in 2017 (25 incidents in 2017 compared to 46 incidents in 2016).
- The displaying of firearms increased in 2017 (206 incidents in 2017 compared to 169 incidents in 2016).
- Displaying a Conducted Energy Weapon (CEW) decreased (39 incidents in 2017 compared to 52 incidents in 2016). The displaying of CEW effectively works to de-escalate incidents and minimize the potential for injury to the community and officers.
- In 2017, there were 60.1 incidents requiring Use of Force Reports for every 100,000 demands for service. In 2016, there were 69.4 incidents requiring Use of Force Reports for every 100,000 demands for service. This represents a 13.4 percent decrease of incidents requiring Use of Force per 100,000 demands for service, from 2016. This can be attributed to a 47.8 percent decrease in humane dispatching of injured animals and a 18.7 percent decrease in CEW use.
- The following is a five year comparison of the total number of incidents where a Use of Force Report was submitted for every 100,000 calls for service.
 - 2013 – 45.7 per 100,000
 - 2014 – 45.2 per 100,000
 - 2015 – 83.5 per 100,000
 - 2016 – 69.4 per 100,000
 - 2017 – 60.1 per 100,000

- The types of calls for service resulting in use of force were varied in 2017 as it was in 2016. The percentage of calls that officers responded to that resulted in the submission of a Use of Force Report is as follows in Chart 1.

Chart 1

Types of Calls for Service			
	2016	2017	Variance (%)
			1 Year
Animals	46	25	-45.7%
Assaults	6	9	50.0%
Break and Enters	28	29	3.6%
Domestic Disputes	16	25	56.3%
Emotionally Disturbed Persons	45	34	-24.4%
Other Disturbances	17	9	-47.1%
Robberies	8	24	200.0%
Search Warrants	3	5	66.7%
Suspicious Persons	3	9	200.0%
Traffic Stops	10	15	50.0%
Weapons	105	100	-4.8%
Other*	49	59	20.4%

*Other includes: Theft of Vehicle, Wanted Person, Intoxicated Person, Negligent discharges and various other arrests.

- In 2017, 95.0 percent of all use of force incidents involved more than one officer. In 2016, 60.1 percent of all use of force incidents involved more than one officer; this represents a 58.10 percent increase over last year.
- Members draw their firearms when they believe on reasonable grounds that it is necessary to protect against loss of life or serious bodily harm, or to destroy an animal. In 2017, firearms were drawn and pointed at a person 206 times, compared to 178 times in 2016. This represents a 15.7 percent increase. This increase can be directly attributed to better uniform response, management of weapons calls and arrests of subjects during break and enter calls.
- The above-mentioned incidents include; weapons calls, silent 911 calls, robbery calls, break and enter calls, armed and suspicious person calls, high risk search warrants and high risk vehicle stops.
- In 2017, a total of 27 incidents resulted in 33 firearm rounds being discharged. 25 of these incidents were required to humanely destroy injured animals, and one incident involved an accidental/negligent discharge in the course of storing the firearm in a police facility.
- The remaining incident where firearms were discharged was a fatal police involved shooting related to a hostage situation at a bank in the City of Vaughan. As per the *Police Services Act*, any time there is an incident involving the police where there has been a death, this incident is being examined by the Special Investigations Unit.

- In 2016, 46 incidents resulted in 69 firearm rounds being discharged. In all of the 2016 incidents, firearms were discharged to humanely dispatch injured animals. In 2017 there has been a 45.7 percent decrease in the total number of incidents involving the discharge of firearms over last year.
- The decrease related to the humane dispatch of ill or injured animals continues to be attributed to the Regional Municipality of York Police Services Board sending a letter in 2016 to the Ministry of Natural Resources and Forestry and our nine municipalities advising York Regional Police would no longer respond to complaints related to sick or injured animals that do not pose a risk to public safety. An exception would be if the animal is injured in relation to a motor vehicle collision.
- In 2017, 96 use of force incidents involved a suspect armed with a weapon, compared to 73 use of force incidents in 2016. This represents a 31.5 percent increase in the number of use of force incidents involving suspects armed with weapons.
- In 2017, officers encountered suspects armed with a weapon in 96 of 224 use of force incidents which represents 43.0 percent of the incidents. The most common weapons encountered were edged weapons at 49.0 percent and firearms at 31.3. Comparatively, in 2016, officers encountered suspects armed with a weapon in 73 of 234 use of force incidents which represents 31.2 percent. The most common weapons encountered were edged weapons at 41.1 percent and firearms at 23.2 percent.
- In 2017, officers were confronted with edged weapons a total of 47 times versus 30 times in 2016 representing a 56.7 percent increase.
- In 2017, CEWs were used (drawn, displayed, and discharged) a total of 61 times by front line officers and members of the Emergency Response Unit (ERU) compared to 75 times in 2016. This represents a decrease of 18.7 percent.
- In 2017, there were 2,329 emotionally disturbed persons apprehended. In these incidents there were only 34 requiring a Use of Force report which represents 13.9 percent of the incidents. In 2016, there were 1,983 emotionally disturbed persons apprehended. In these incidents there were 45 requiring a Use of Force report which represents 19.1 percent of the incidents. This represents an increase of 17.4 percent in apprehensions with a decrease of 24.4 percent of incidents requiring the submission of reports.
- There are several factors that contribute to the success of a canine assisted arrest of a subject. In 2017, there were 14 incidents requiring a Use of Force report where Canine was utilized as an option to assist in officers in the arrest of a subject verses 16 times in 2016 representing a 12.5 percent decrease. This decrease can be attributed to subjects hiding as a result of improved front line response and having less time to escape prior to officers arriving.

The chart below illustrates the variety of use of force options that were employed by officers during the past two years.

Chart 2

Type of Force Used			
Use of Force Option	2016	2017	Variance (%)
			1 Year
Firearm Discharged	46	27	-41.3%
Firearm Pointed at Person	135	167	23.7%
Firearm Drawn	34	39	14.7%
Aerosol Weapon	6	3	-50.0%
Impact Weapon – Hard	9	5	-44.4%
Impact Weapon – Soft	1	3	200.0%
Empty Hand – Hard	33	31	-6.1%
Empty Hand – Soft	33	42	31.3%
Conducted Energy Weapon	75	61	-18.7%
Canine	16	14	-12.5%
Other*	0	0	0.0%

*Other includes: Items of opportunity that were accessible to the officer in an emergent situation that were not issued or listed equipment. Examples include: tables, chairs and Muzzle Blast (a Less Lethal Powder Dispersion deployed by ERU)

- In 2017, there were eight officers injured in use of force incidents, compared to seven officers in 2016. This represents a 14.3 percent increase. In each of these instances, the officer's injuries were minor in nature.
- In 2017, 60 subjects were injured in use of force incidents, compared to 76 subjects in 2016. This represents a 21.1 percent decrease in injuries to subjects. This decrease in the number of reported injuries to subjects in 2017 were primarily as a result of more soft physical control techniques being used to control subjects.
- In 2017, 90.0 percent of the use of force incidents involved uniform personnel and 10.0 percent of officers assigned to plain clothes duties. In 2016, 90.5 percent of the use of force incidents involved uniform personnel and 9.5 percent of officers assigned to plain clothes duties.
- In 2017, the largest percentage (43.0 percent) of use of force incidents took place on a roadway.
- In 2017, 58.3 percent of all use of force incidents took place between 6:00 pm and 6:00 am.

Trending – Use of Force

The following areas were noted as trends in Use of Force categories for 2017:

De-Escalation Strategies – There was a 24.4 percent decrease in incidents requiring the submission of a Use of Force report, despite an increase of 17.4 percent in the apprehension of Emotionally Disturbed Persons. This decrease can be attributed to a greater focus on communicating with people in crisis during the scenarios that formed part of our 2017 annual requalification training.

Empty Hand – Soft – There was a 31.3 percent increase in Soft Empty Hand techniques (physical control) from 2016 to 2017.

Impact Weapon – Hard - There was a 44.4 percent decrease in the use of the Expanded ASP Baton from 2016 to 2017.

Conducted Energy Weapon – There was a 18.7 percent decrease in the reported use of the Conducted Energy Weapon from 2016 to 2017.

Firearms Discharged – There was a 41.3 percent decrease in firearms discharged from 2016 to 2017.

The continued decreases in the various uses of force can be attributed to officers using de-escalation methods more effectively, as opposed to using a higher level of force option. As well, better scene management and utilization of resources continue to contribute to the decrease.

The Training and Education Bureau continues to monitor information provided by the Use of Force Review Committee in order to adapt practical skills training where required. This is often conducted through firearms skills, defensive tactics and scenario-based training exercises, that emphasize de-escalation and communication. This skills-based training is delivered on the Annual Uniform Requalification Training Program. Through data gathered from the Use of Force Reports, the Training and Education Bureau is able to provide officers with the knowledge and skills based training required to protect the public and themselves.

Recommendations

The continued ongoing commitment to de-escalation techniques and training will continue to be a focus of practical skills training.

The Use of Force Review Committee will continue to review all Use of Force Reports and assess the circumstances and outcomes for trends and patterns. This information will be integrated into various training opportunities to ensure members are properly prepared to deal with situations that arise requiring the appropriate tactical considerations.

The Province of Ontario does not compile yearly use of force statistics. York Regional Police is required by the Province of Ontario to complete Use of Force Reports, but there is no requirement to submit these reports unless requested.

In conclusion, the review of the processes and methods that York Regional Police employ in reporting and dealing with use of force incidents are in compliance with the Policing Standards Manual, the *Police Services Act* and York Regional Police Use of Force Procedure (AI-012).

THE REGIONAL MUNICIPALITY OF YORK
POLICE SERVICES BOARD

REPORT OF THE EXECUTIVE DIRECTOR

April 25, 2018

Use of Board Resources for Election Purposes

RECOMMENDATION

1. That the Board adopt the proposed policy Use of Board Resources for Election Purposes, attached as Appendix A.

BACKGROUND

Before May 1, 2018, the Board must establish a policy on the use of Board resources during the campaign period pursuant to Section 88.18 of the *Municipal Elections Act*. Section 88.18 requires Ontario municipalities and local boards to establish rules and procedures with respect to the use of municipal or board resources, as the case may be, during the election campaign period.

POLICY IMPLICATIONS

The policy provides guidance to the Board and to Board staff and York Regional Police and registered third parties and candidates regarding the use of Board resources including facilities, technology, employees and equipment for campaigning and campaign-related activities. The proposed policy was adapted from the Region's policy and meets the requirements of the legislation.

FINANCIAL IMPLICATIONS

There are no financial implications associated with this report.

Mafalda Avellino
Executive Director

Attach. (1): Appendix A: Policy on Use of Board Resources for Election Purposes

YORK REGIONAL POLICE SERVICES BOARD

DRAFT Use of Board Resources for Election Purposes No.01/18

Date Approved: April 25, 2018

Date Amended:

Legislative Authority: *Municipal Elections Act, 1996*

Purpose

This policy provides direction on the appropriate use of Board resources during an election campaign in accordance with the *Municipal Elections Act*. This ensures that all candidates are treated fairly and consistently and preserved the integrity of the electoral process.

Application

This policy applies to all candidates running for election including Board members, registered third parties and Board employees which includes York Regional Police ("YRP").

Legislative Authority

The *Municipal Elections Act* prohibits a municipality or local board from making contributions towards the promotion of or opposition to the candidacy of a person for an elected office in any form or in support of or opposition to a question on a ballot. This includes assets, resources, services and employees.

Terms

"Act" means the *Municipal Elections Act, 1996*, as amended, and includes any regulation made there-under.

REPORT OF THE EXECUTIVE DIRECTOR

April 25, 2018

**Public Relations Reserve Fund
Requests for Funding**

RECOMMENDATIONS

1. That the Board support the 9th Annual Ontario Police Memorial Foundation Golf Tournament with a \$1,000 donation.
2. That the Board support the 5th Annual Golf Fore MADD Golf tournament with a \$5,000 donation.
3. That the Board support the 13th Annual York Regional Police Golf Tournament with a \$10,000 donation.

BACKGROUND

The Public Relations Reserve Fund Policy No. 08/08 outlines the use of unused monies in the Public Relations Reserve Fund. The monies from this fund are from proceeds from the sale of unclaimed personal property and money found and seized by the police service and can be used for any purpose that the Board considers in the public interest in accordance with Sections 132 (2) and 133 (3) of the *Police Services Act*.

The Executive Director monitors expenditures and reports back to the Board semi-annually on all activity in the Public Relations Reserve Fund, including revenue, disbursements and balance.

The closing balance of the Public Relations Reserve fund on March 31, 2018 is \$294,751.

REQUESTS FOR SPONSORSHIP

Durham Regional Police Association – Ontario Police Memorial

The Durham Regional Police Association is hosting the 9th Annual Ontario Police Memorial golf tournament and is seeking sponsorship from the Board. The Board did not support this request last year. I am recommending a \$1,000 donation in support of this request.

The Ontario Police Memorial Foundation is a Charitable Foundation responsible for the management of the Memorial, which includes adding names of fallen officers whenever required. The Foundation hosts the yearly Ceremony of Remembrance, which is always on the first Sunday in May each year.

The funding request satisfies the criteria in the Board's Public Relations Reserve Fund Policy No. 08/08 of supporting law enforcement and justice initiatives.

MADD York Region

MADD York Region along with York Regional Police will be hosting the 5th Annual Golf Fore MADD golf tournament taking place at Cardinal Red Crest Golf Club in King City on August 17, 2018. MADD York Region's mission is to stop impaired driving and to support victims of this violent crime. Last year the Board provided sponsorship in the amount of \$5,000 as presenting sponsor. The Board has been providing sponsorship to MADD York Region since 2014. This year they are requesting the Board provide support as presenting sponsor for \$5,000.

The funding request satisfies the criteria in the Board's Public Relations Reserve Fund Policy No. 08/08 of supporting law enforcement and justice initiatives.

York Regional Police Golf Tournament – Community Safety Village and Yellow Brick House

York Regional Police will be hosting its 13th Annual Golf tournament in support of the Community Safety Village and Yellow Brick House. The event is taking place at the Upper Unionville Golf Club in Markham on June 29, 2018. Last year the Board provided sponsorship in the amount of \$10,000 as a presenting sponsor. The Board has been providing sponsorship to this event since 2006, formally known as the Community Safety Village golf tournament. This year they are requesting the Board provide support as presenting sponsor for \$10,000.

The funding request satisfies the criteria in the Board's Public Relations Reserve Fund Policy No. 08/08 of supporting law enforcement and justice initiatives and supports co-operative initiatives between York Regional Police and the citizens of York Region that foster community harmony and safety.

Durham Regional Police Association GOLF TOURNAMENT

Wednesday, August 22, 2018 - Deer Creek Golf Club

All proceeds to the Ontario Police Memorial Foundation

February 28, 2018

Mr. Frank Scarpitti, Chair
The Regional Municipality of York Police Services Board
17250 Yonge Street, 3rd Floor
Newmarket, ON L3Y 4W5

Dear Mr. Scarpitti:

The Durham Regional Police Association is proud to host the 9th Annual Ontario Police Memorial golf tournament. Over the past seven years, this tournament has raised over \$192,000 for the Ontario Police Memorial Foundation through its participants and generous sponsors.

This year's tournament takes place on Wednesday, August 22, 2018 at Deer Creek Golf Club.

The success of this tournament is attributed directly to the golfers and the generosity of sponsorships and donation of prizes. There are several ways to support the OPMF:

- 1) Register as a golfer or a foursome;
- 2) Participate through sponsorship opportunities;
- 3) Donate items for the golfers' welcome bags;
- 4) Donate prizes for the silent and live auctions.

Don't miss out on your chance for a great day of golf and/or the opportunity to support those who protect us. We look forward to hearing from you!

Dear Mafalda,

Please pass on to the Police Services Board MADD York Region's gratitude for their continued support of our golf tournament. On Friday August 17, 2018 we will be hosting along with York Regional Police our 5th annual "GOLF FORE MADD" tournament at Cardinal Red Crest Golf Club in King.

Every day on our roads in Canada 4 people are killed and 174 are injured at the hand of impaired drivers.

Since our tournament last August York Region has been faced with too many catastrophic impaired driving crashes. The devastation from every crash has had a ripple effect on the citizens of York Region. Unfortunately this year, sadly one of the tragedies affected a York Regional Police family closely and as a result has impacted all of us even greater.

MADD York Region now supports a number of victims. The financial demands on our chapter are tremendous. We will require funds to send more victims to MADD National's conference for victims of impaired driving (cost \$775.00 / victim) than we did this year. Our goal is to ensure that every victim is able to attend.

With these dreadful numbers, our chapter is faced with training more volunteers to assist these victims at court and continued support following the judicial process. This training is offered at MADD National's Leadership Conference (cost \$775.00/delegate).

It is MADD York Region's goal this year to attend as many community events as possible to bring awareness to the citizens of York Region. The chapter will also attend school events to educate and enlighten the youth in the community of the risks of impaired driving and how to be proactive.

MADD Canada's mission statement is to stop impaired driving and support victims of this violent crime. In order for us to continue to fulfill our mission statement and support these numbers, MADD York Region will require an astounding amount of funds. It is our goal to raise as much money as possible through events such as our golf tournament. We are once again asking for the support of the Police Services Board as our presenting sponsor for \$5000.00. Thank you in advance for your support and consideration.

Dear Chair Virginia Hackson:

On Friday, June 29, 2018, York Regional Police will be hosting our 13th Annual Golf Tournament in support of the Community Safety Village and Yellow Brick House. Yellow Brick House has been at the centre of addressing the issue of violence against women and children for the past 40 years.

We would like to thank you for your generous support in the past as our Presenting Sponsor and are hopeful you will be able to join us at this level again. This year we are at a brand new course, Upper Unionville Golf Club in Markham. The shotgun tee off will start at 7:30 a.m.

About our charities:

- The Community Safety Village of York Region has provided safety lessons to over 425,000 students from Kindergarten to Grade 5, through innovative, hands-on educational programming on Internet safety, gang prevention, traffic safety and fire safety. The Safety Village has recently expanded their programming to welcome in York Paramedic Services and in 2018, we plan to expand to better serve the needs of our community.
- The emergency shelters of Yellow Brick House operate at full capacity year round. Last year, at a critical time when support and safety was needed the most, 260 women and 295 children fleeing violence could not access a shelter bed.

The proceeds of this tournament will be used to support the Yellow Brick House's Markham Shelter, so that women and children escaping abuse and violence have the safety and support needed to rebuild their lives. They will also be utilized to assist the Safety Village in building an additional classroom to teach students lessons focussed on social justice studies, including issues of diversity, inclusion and human rights.

Your ongoing support will help ensure we can continue our work towards a safe future for everyone.

For further information and to register your team, please contact Karen Richards, Special Events Supervisor at 5475@yrp.ca or 1-866-876-5423, ext. 7774.

Yours truly,

Eric Jolliffe, O.O.M., BA, MA, CMM III

Yellow Brick House has been at the centre of addressing the issue of violence against women and children for 40 years.

Their emergency shelters operate at full capacity year round. Last year, at a critical time when support and safety were needed the most, 280 women and 295 children fleeing violence could not access a shelter bed. The proceeds of this tournament will be used to support the Yellow Brick House's Markham Shelter, so that women and children escaping abuse and violence have the safety and support needed to rebuild their lives.

The Community Safety Village has been educating the children of York Region in traffic safety, bicycle safety, fire safety and internet safety for the past 13 years. Since opening it's doors in 2005, over 400,000 children have participated in these life saving educational programs. We have expanded in our programming to welcome in York Paramedic Services and in 2018, we are planning an expansion to better serve the needs of our community. The programming for the additional classroom is to be focussed on social justice studies including issues of diversity, inclusion and human rights. Help us meet both of these important community needs by registering your team today!
